

Test Your Well Water

If you don't test your water, how do you know what is in it?

Well Wise has partnered with the [the Ontario Ground Water Association](#) to provide our water testing program. To order a water test, call OGWA at 519-245-7194.

[Why test your well water?](#)

[What should I test for?](#)

[Well Wise/OGWA Water Testing Program](#)

The Safe Drinking Water Act, 2002 (SDWA) requires that testing of drinking water be performed by approved and licenced laboratories. All Well Wise drinking water tests are carried out by Maxxam Analytics Inc., a laboratory approved under this Act by the Ontario Ministry of the Environment.

- A survey conducted in 1991/92 of 1200 rural wells in Ontario found:
- 14% high for nitrate
 - 34% high for bacteria
 - 6 wells exceeded for pesticides
