Silent Auction and Prize Donations would be greatly appreciated!

The Ontario Ground Water Association will host its second annual golf tournament to raise funds for annual scholarship awards for graduates of Fleming College's resources drilling and blasting program. The OGWA's aim is to raise funds that can be held in an interest-earning account to be dispersed each year to the recipients at its annual convention.

"It is important to recognize the academic achievements, year to year, of deserving students and welcome them into the ground water community," said Paul Conrad of the association's board of directors.

If you can't attend, you can still help support the industry's next generation by making a donation through the association. Funds earmarked for the scholarship will be set aside for this purpose.
